ALL NATURAL

hair & skin oil

PURE & UNREFINED

As Korean-Americans who diligently have been keeping an eye on K-Beauty's emergence and its prosperity in the skin and cosmetics industry, we knew that its popularity wasn't going to subside just as a trend. We made it our goal to figure out just what makes it so attractive to its audience, what makes it thrive. Among many reasons is the tradition; a long standing tradition of using natural ingredients and focusing on the health and the glow of the skin throughout a lifespan, not just for the years of what's considered the younger age. We dedicated the past 12 months in developing our all natural line of oils, which is beneficial not only for the hair and the scalp of all types, but also for the skin of all types, concentrating on their hydration and natural radiance.

hair & skin oil

PURE & UNREFINED

Castor oil's richness in protein, vitamins, antioxidants and fatty acids is great for hair and scalp health. It helps hair growth by nourishing the hair from its roots, also heals and hydrates, which makes for a great treatment for most skin problems. Our castor bean based oil is meticulously mixed with other natural oils to bring the best remedy for any type of hair, scalp and skin issues.

Our products contain no sulfates, no parabens, no mineral oil, no synthetic colors, and was not tested on animals.
